Weighted Intervals Scheduling Problem Example (Graphic)- Starting Value of p is 0

0	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	22	23	24	25	26	27	28	29	30	
		j=1					v=2						p=0																		
				j=2							v=4								p=0												
														j=3				v=4					p=1								
														J=0				V-4					p=1								
						j=4										v=7										p=0					
																							j=5			v=2			p=3		
																								j=6			v=1				p=3
