This document is a sample of a script of some test runs of a program. It was produced by using the script command and running the program in this directory called "sampleProgramSubmission-level-02" twice, with different test responses input to it. We can see from the script that the level 02 program functioned correctly.

lamie@altair:(~) a.out
F. Scott Fitzgerald wrote a story about a diamond as big as the Ritz Hotel in New York. I hope you like the little diamond that this program writes, even though it is not a real one, and certainly not anywhere near as large as the Ritz Hotel.
Would you like to see a pattern? Answer y or n: n
