## IS – GLOBAL BUSINESS APPLICATION SOLUTIONS

### About Gallo

E. & J. Gallo Winery arose 75 years ago from humble beginnings by Brothers Ernest and Julio Gallo. Today, we are the world's largest family-owned winery. We are the largest exporter of California wine, distributing to over 90 countries. E. & J. Gallo Winery employs an innovative and talented team made up of more than 5,000 individuals. Gallo employees contribute to the continued development and progression of the company, causing it to be a dominant force in the ever-growing wine industry. If you aspire to work among a distinguished set of individuals and thrive in a career that is part of a dynamic industry expected to double in the next ten years, envision the abundant opportunities that await you at E. & J. Gallo Winery.

### Job Description

E. & J. Gallo Winery's award-winning Information Services organization is searching for candidates who want to start their career with the IS - Global Business Application Solutions team. The Business Application Solutions team works closely with departments throughout the Winery to deliver solutions using sophisticated, state-of-the-art technology to improve our processes and enhance the customer experience. The Business Application Solutions team currently seeks candidates for the positions of Associate Business Systems Analyst and Associate Programmer Analyst. All entry level Business Applications Solutions positions provide the opportunity for growth and development within the Information Systems department at the Winery.

In the role of an Associate Business Systems Analyst, you will have the unique opportunity to conduct business process analyses, needs assessments, and preliminary cost/benefit analyses in an effort to align information technology solutions with business initiatives. These business initiatives may require you to participate in department and interdepartmental project teams and work cross-functionally to improve processes within the organization. You will be applying current technology and new technical knowledge to complete projects, and may advise others on current issues and designs.

In the role of an Associate Programmer Analyst, you will be assisting in research and fact-finding to develop or modify information systems. You will be analyzing business procedures to develop specifications and convert to application code, as well as participating in studies to evaluate effectiveness and developing new or modifying current systems to improve processes.

### Requirements

Position requires a high school diploma or GED and a bachelor's degree. Prefer candidates that have an undergraduate or graduate degree in the areas of Computer Science, MIS, or Business Administration. Prefer candidates that have strong customer focus and quality orientation as well as excellent communication skills and the ability to work in a team environment. This position is open to students with the permanent, legal right to work in the United States; the IS department at Gallo does not sponsor or renew visas for this position. **EEO/AA M/F/V/D**

### Location

This position is located at the E&J Gallo Winery's headquarters in Modesto, California. This facility is the center for production, distribution, and corporate decision making for the Domestic and International businesses.
