

# CS 4480, Fall 2015

## Project Proposal Guidelines

Upload your project proposal to the homework submission system no later than **Monday, September 14th**. Below are format guidelines:

<Your Name>

CS 4480

<Date>

Topic Proposal

**<Working Title>**

First paragraph: describe your proposed project. (Be sure to address AI.)

Second paragraph: discuss the following

- Which programming language you intend to use.
- What you plan to address and emphasize.
- What you intend to leave out and why.

Additional paragraphs as necessary.

Provide a list of tentative sources in ACM Journal or APA format.

[http://www.acm.org/publications/word\\_style/word-style-toc/](http://www.acm.org/publications/word_style/word-style-toc/)

<http://library.csustan.edu/citation-style.htm>

You can start your project when I approve your proposal; I may ask you for one or more revisions along the way. Keep in mind that this is an AI project, so it should include a rational agent.

If you would like to form a team of two or three, please put all students names at the top of the page, but have each person upload a copy to the homework submission system.
