Peer Review Response

Author's Name _____ Reviewer's Name _____

Note: This review does not address issues of language utilization, punctuation, spelling, appropriate acknowledgement of sources, etc.

Some questions to address with constructive honesty:

- 1) Overall did it capture your interest, for example? Or did it "feel" disjointed? Was it easy to understand?

- 2) Is the thesis of the paper clearly stated near the beginning? Quote the thesis statement from the paper.

- 3) Are there any parts of the paper where it is hard to discern the main idea? Do any of the sections of the paper seem unrelated to the thesis?

- 4) Which of these main ideas did you find to be the most well written or interesting? Why?

- 5) What parts are confusing to need more development? Can you say something about what might help? For instance, are there terms or underlying concepts you don't understand?
